

## DeltaLUXX as hall lighting

Convincing through good quality and service

<b>Customer/installation engineer:</b>	Donatsch Steel construction Landquart/Swisspro Igis
<b>Requirement:</b>	new hall lighting
<b>Solution:</b>	DeltaLUXX 240
<b>Article:</b>	800157
<b>Quantity:</b>	54
<b>Areas of application:</b>	Workshop, Production, Halls

### Starting situation

The customer wanted to replace his existing hall lighting with powerful spotlights.

For a test phase of three months, he received seven spotlight models from various suppliers.

Our DeltaLUXX 240 convinced the customer and we were able to completely illuminate the hall anew. Important reasons for the decision were the quality and service of GIFAS.

### Customer benefits

- robust housing made of corrosion-resistant die-cast aluminium
- low heat generation thanks to the latest LED technology
- low energy consumption with high light output
- maintenance-free
- vibration-resistant
- various light dispersion characteristics available
