

## SpotLED FLEX work lamp

SpotLED with flex hose 200mm

SpotLED with flex hose 400mm

The work lamp SpotLED FLEX proves for a good view in every situation, it is a highly effective, small and compact light source. This lamp provides light as needed, safe and comfortable. Thanks to latest LED technology, SpotLED FLEX is a very energy-efficient, long lasting lighting in commercial, industrial and indoor and outdoor areas.

The SpotLED FLEX is extremely robust, can be rotated and turned and offers therefore a wide variety of applications for the right light.

Our standard range includes lengths of 200mm to 600mm, but obviously we are manufacturing also other models, concerning optics, light colour, length of flex hose (on request).

We also offer a wide assortment of accessories, from magnetic clamp right up to the protective grid.

### Technical Data

Power supply:	12-30VDC
Power consumption:	500mA@24VDC, 950mA@12VDC
Lamps:	5 Power LED @ 3W
Lamp colour:	cool white 6'350-7'000K
Beam Angles:	Spot: 10° Medium: 38°
IP rating:	IP67 (without plug-in power pack)
Protection class:	III
Surface temperature:	max. 55°C
Material flex hose:	Steel, black coated
Materials adapter:	Steel, black coated
Connection cable:	1.6m, 2x0.5mm <sup>2</sup> (PUR-cable)

### Product Features

- Small spotlight in modern design
- Brackets made of stainless steel V2A, powder-coated
- Temperature range -30°C up to +45°C
- Thanks to vibration-proof LED technology, the maintenance costs are lower than with conventional lighting
